

## **Ernesto Lea Place**

Originally from Buenos Aires, Argentina, he started his journey in the arts as a theatre student. Storytelling took him to his first dance class, and that is where his passion for movement began. After almost a decade of dancing professionally in various ballet companies, Ernesto took a leap of faith with his best friend to create a duo circus act and find new horizons in his artistic career. His aerial duo, also known as pas de deux straps, has been internationally recognized. He loves to find a balance of pushing physicality to express emotion and connect with all audiences.
